1. Rhythm of Life

Chorus:

Feel the rhythm of life moving in you
With each beat of your heart you are born anew

With each breath you take, a vow you make
To fulfill your destiny
With each thought you form, a dream is born
That will set your spirit free

(Chorus)

With each step you take, your Soul awakes
On this sacred journey
Each coincidence is evidence of a
Greater tapestry

(Chorus)

With each prayer you speak, the Truth you seek
Of this dance through eternity
Release and let go of all you know
Then the answers you will see

(Chorus)

Let your Spirit flow, let it dance and glow
Shining for the world to see
Let your voice ring out, the world throughout
Resonating harmony

(Chorus)

2. Through God's Eyes

Hush my child, don't you cry
Close your eyes and let me sing you a lullaby
Take my hand, listen carefully
Follow my voice as we journey through eternity

If you could see yourself through God's eyes
You'd see just how wondrous you are
A perfect creation, expression of life
Unfolding in magical ways

You are the sun on a rainy day
You are the wind that blows the clouds away
You are the stars that light up the night
You are in God's eyes a beautiful sight

The illusions of life will someday grow strong
Removing you from the Source of your Reality
But when this day occurs you just close your eyes
And in your heart you'll hear this lullaby

There is a Light that shines deep within you, my child
It is the essence of who you are
Let your light shine brighter than ever before
It is time to let your presence be known

You are the Power to heal this world
You are the Light that will guide the way
You are the Love that unites us all
You are the dawn of a bright new day

We are the Power to heal this world
We are the Light that will guide the way
We are the Love that unites us all
We are the dawn of a bright new day

3. Shining Star

Have you ever watched the sunrise
And heard the angels sing
Felt their presence all around you
As if enveloped by their wings
Let the sound of their voices
Resonate in your soul
Awakening your memories
Allowing your Divinity to unfold

Chorus:

You are One with the Divine, a Brilliant, Shining Star
It's time to acknowledge who you are
You are One with the Divine, a Brilliant, Shining Star
Express yourself and the magnificence that you are

As the stars light up the night skies
And moonbeams fill your eyes
There's a longing deep within you
To see what's on the other side
Then a shooting star reminds you
The answers lie within
You've known them all along
It's who you've always been

(Chorus)

As the flowers bloom in springtime
And their fragrance fills the air
Their colors paint the landscape
A beauty beyond compare
But you share the same Creator
Expressing Itself through you
Your soul begins to blossom
Revealing the Divine within you

(Chorus)

4. Let Love In

There's a place in your heart where God lives
Expressing Itself through you
If you allow Its presence, Its presence to move
There's nothing that you cannot do
No, there's nothing that you cannot do

You can forgive those who have caused you pain
You can love them just the same
For there's room enough for everyone
Within the Heart of God
Yes, there's room enough within the Heart of God

Chorus:

So open your hearts now and let Love in
And God will transform the world through you
With your words of Love, mountains will move
With your thoughts, the world is created anew

As the Source of your Oneness and Unity
Resounds in perfect harmony
The walls of separation created by fear
Will all begin to disappear
The walls will all disappear

For you are One Heart and One Mind
A perfect expression of the Divine
There is One Light, our only Source
It's a powerful, healing force
The Light is a powerful force

(Chorus)

5. Embrace Yourself

Chorus:

Embrace yourself and the Truth of who you are
Embrace yourself and celebrate your life
The Truth of the matter is God is All There Is
God is, You is, I is, We is, That's All There Is
That's All There Is

If God is All There is, then It's all of who you are
Expressing through you in everything that you do
There is nothing in this world that can keep you apart
For God is in you, as you, through you, God is all of you

(Chorus)

In order to receive, all you must do is believe
That Abundance of Life is already yours
It is right there within you just waiting to be revealed
You have always held the keys to unlock the doors

So just speak your word and it will be done
Say thank you God for it's already begun
Then let it go and watch it appear
It takes no time at all, it's already here

(Chorus)

There's a Power within you that cannot be denied
It's the Source of All Creation and the Power of Love
These are Universal Truths on which you can depend
Heaven is within you, not somewhere up above

So just speak your word and it will be done
Say thank you God for it's already begun
Then let it go and watch it appear
It takes no time at all, it's already here

(Chorus)

6. Angels Just For You

Chorus:

There is an angel watching over you
There is an angel just for you
Right beside you, guiding you through

Sometimes you can hear a whisper in the silence
Or feel a gentle brush against your face
You sense there's someone there
That no one else can see
And you wonder who can it be

(Chorus)

Even though you feel that sometimes you are all alone
In a world that does not seem to understand
There are angels all around us, just a whisper away
Watching over us each and every day

(Chorus)

When you find that you are up against a challenge
That seems to be beyond your control
Remember there's an angel
Waiting there to hear you say
Take my hand and show me the way

(Chorus)

7. It's God I See

When I look into the children's eyes
It's God I see, looking back at me
When they place their hands in mine
It's all so clear, what they're doing here

Chorus:
They are Spirit sent from above
Emissaries of Love
They've come bringing Peace and Harmony
Making It our Reality

When their hearts are joined with mine
It's God I feel, a Love that heals
When I hear their words of Truth
There is no doubt, what they're all about

(Chorus)

When their thoughts are all aligned
It's God I hear, speaking loud and clear
With the reason why they are here
To prove that Love is greater than Fear

(Chorus)

They are Spirit sent from above
Emissaries of Love
Love

9. Fly With Me

Chorus:
Spread your wings and fly away
Like a beautiful bird in the sky
You can fly
Don't listen to what others say
Listen your voice within
Telling you to fly
Don't let life pass you by
You were born to fly
Come and fly away with me now
Allow yourself to be all you're meant to be
Come fly with me

The journey of life, it twists and turns
Providing the lessons you've come to learn
All the paths you've traveled
Even when you thought you lost your way
Have prepared you to fly today

(Chorus)

Embrace your life and all that you are
Every experience along life's way
All your joys and fears
All your laughter and tears
Celebrate the wonder of it all.

(Chorus)

8. Grateful Heart

Each morning when I wake up, before the day's begun
There's a song in my heart that must be sung

Chorus:
I am grateful for each day
And the Gifts of Life that come my way
I am grateful for each opportunity
To experience the joy that flows through me

Each time I see a rainbow painted across the sky
Or hear the fluttering of a butterfly
The golden sky at sunset that melts into the night
When the stars come out to play, twinkling with delight

(Chorus)

The voice of a friend at the other end of the line
Who always seems to call at just the right time
A wink or a smile, a how do you do?
Just someone holding the door open for you

(Chorus)

The echoes of laughter dancing in the air
Feeling the wind blowing through my hair
The wide-eyed wonder of an innocent child
The unbridled power of a horse running wild

(Chorus)

Each morning when I wake up, before the day's begun
There's a song in my heart that must be sung

(Chorus)

I Am Grateful

10. Right Here, Right Now

Caught up in the stories from our past
Lost in the visions for our future
Leaves no time for this moment
For this moment right here and now

Chorus:
Meet me right here, meet me right now
For this is where our power is waiting
Meet me right here, meet me right now
For this is where, where our healing begins

Now it's time to leave the past behind
Forgiving all of our illusions
Freeing our minds of fear
And filling them with Peace

(Chorus)

Right here right now, Love is All There Is
Right here, right now, Peace is All There Is
Right here, right now, We are Love
We are Peace, We are One

Now it's time for our Light to shine
Like it's never shone before
Shining for all to see
And filling the world with Love

(Chorus)

Right here, right now, Love is All There Is
Right here, right now, Peace is All There Is
Right here, right now, We are Love
We are Peace, We are One

Meet me right here, meet me right now
Be Here Now
